

Vicki's Credentials:

Thank you for your interest in Christian counseling. In 2009 I finished my Masters in Counseling Psychology at Southern California Seminary; however, I am not a CA-licensed therapist. I believe that for counseling to be effective and lasting, it must be Christ-centered, biblically-based, and Spirit-led. I'm committed to respecting the values of each person and to provide a safe place in which to seek growth and promote the healing process. Please read my "Informed Consent" for more information about counseling.
